Cisco Safe Harbor Release 8.2.2 Limited for Financial Enterprise Customers

Version History

Version Number	Date	Notes
1	May 20, 2004	This document was created.

The nEverest program is a quality initiative that focuses on satisfying customer requirements by coordinating Cisco IOS release system-level and reliability testing under "real world" conditions, creating either Safe Harbor or profiled releases. The nEverest testing uses the following five profiles, the designs of which are based solely on customer requirements:

- Enterprise Global
- Enterprise Financial
- Service Provider/IP backbone
- Service Provider/MPLS backbone
- Broadband

Cisco Safe Harbor Release 8.2.2 Limited for Financial Enterprise Customers provides a summary of the system-level and reliability testing completed atop the financial enterprise profile for the specified release. If you would like to see the contents of this document and you are a Cisco customer, it is available at the following URL:
